

PORTASPEC® XBT UPGRADE

A retrofit upgrade to the PORTASPEC® 2501 XBT machine costs significantly less than investing in a new machine. The retrofit upgrades will enhance the functionality of your 2501 XBT with new features creating additional benefits, while ensuring quality results.

Two options to retrofit the PORTASPEC® 2501 XBT multi-element sequential analysis model.

PORTASPEC® XRST Style Enhancements

Featuring:

- 8 sample rotating tray
- New enhanced software
- Integrated computer
- 1 year warranty on all new parts

Benefits:

- Improves productivity
- Pre-load 6 samples at a time
- Minimal set-up time
- Increased ease of tracking samples

PORTASPEC® Series X Style Enhancements

Featuring:

- Larger sample tray
- New enhanced software
- Integrated computer
- 1 year warranty on all new parts

Benefits:

- Improves productivity
- Reduces coupon clipping
- Simplifies analysis
- Enhanced recording data
